PREPARING YOUR CAREGIVING FAMILY FOR
Holidays, Getaways, Parties & Vacations

Each quarter we discuss a hot topic for all generations of families who provide or coordinate care for a loved one impacted by disability. Our theme this fall is "Holidays, Getaways & Vacations." Families impacted by disability commonly have difficulty with holidays, birthday parties, vacations, travel and other gatherings with friends and family. Challenges range from planning and logistics to grief, relational tension, overstimulation and behaviors. Join us for a brief presentation followed by a collaborative exchange of perspectives, ideas and encouragement.
